

# ADITHYA TEJ BM

Bengaluru, India | +91-8150894596 | [adithyatej2002@gmail.com](mailto:adithyatej2002@gmail.com)

## PROFESSIONAL SUMMARY

MCA student with a B.Sc. in Data Sciences and Analytics. Proficient in Python, SQL, R, Tableau, Power BI, and Databricks. Experienced in machine learning, statistical modeling, data visualization, and building dashboards. Seeking to apply predictive analytics, data pipeline development, and ETL skills to real-world business problems.

## TECHNICAL SKILLS

**Programming:** Python (Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn), R, SQL (MySQL), MongoDB

**BI & Visualization:** Tableau, Power BI, Excel (Advanced), Data Dashboards

**Data Engineering & Cloud:** Databricks, ETL Workflows, Data Pipelines, Data Preprocessing, AWS Cloud, Cisco Packet Tracer, Azure, GCP

**Core:** Machine Learning, Predictive Analytics, Statistical Methods, Big Data Analytics, Business Analytics

## EDUCATION

**MCA – Storage & Cloud Technology** | Jain University, Bengaluru | Aug 2025 – May 2027 (In Progress)

**B.Sc. (Hons.) Data Sciences and Analytics** | Jain University, Bengaluru | Sept 2021 – May 2024

## WORK EXPERIENCE

**HR Analytics Intern** | IIFL SAMASTA FINANCE LIMITED | April 2026 – August 2026

- Managed AON assessment credentials and coordinated candidate testing logistics for hiring processes
- Conducted daily retention bot calling to support employee retention tracking and analysis
- Consolidated daily hiring trackers using VBA-based VLOOKUP/XLOOKUP automation for streamlined reporting

**HR Operations Intern** | UNO MINDA LIMITED | June 2023 – July 2023

- Maintained HR databases and employee records, ensuring data accuracy and integrity across systems
- Prepared HR analytics reports by collecting, cleaning, and analysing workforce data for stakeholder insights
- Streamlined onboarding and exit documentation workflows; assisted in recruitment screening processes

## PROJECTS

**Deep Reinforcement Learning for Board Games** | Python, PyTorch | (in progress)

- Implemented DRL algorithms using PyTorch, Deep Learning Algorithms

**Pneumonia Detection using Machine Learning** | Python, Deep learning libraries | 2025

- Developed a pneumonia detection model using medical imaging data (chest X-rays)
- Performed data preprocessing, image normalization, and dataset splitting for training and testing
- Visualized results to improve model interpretation and prediction quality

**Product Analytics Dashboard** | Power BI | 2025

- Built an interactive Power BI dashboard by merging multi-year sales and customer datasets using data modeling and joins
- Designed KPIs including Sales Achievement, Profitability, Average Discount, and Order Metrics to track business performance

**Resume Checker** | Java, Java Swing (OOP) | 2026

- Built a desktop-based Resume Checker application using core Java OOP principles (classes, inheritance, encapsulation) for modular, maintainable code
- Designed an interactive GUI with Java Swing for resume upload, input handling, and result display
- Implemented logic to parse and evaluate resume content against defined criteria (keywords, formatting, or scoring rules) and return feedback to the user

## CERTIFICATIONS

---

Supply Chain Analytics – Rutgers (Coursera) | SQL – Univ. of Colorado Boulder (Coursera) | Data Visualization in Excel – Macquarie Univ. (Coursera) | Ordered Data Structures – UIUC (Coursera) | AWS Academy – Cloud Architecting (Aws academy) | Introduction to Data Science (Cisco Networking Academy) |

## LANGUAGES

---

English (Proficient) | Hindi (Fluent) | Kannada (Proficient) | Telugu (Proficient) | Tamil (Fluent)
